MEMORANDUM FOR: Director of Operations

27 August 1956

SUBJECT : Trip Report - Commander [REDACTED]

25X1A

REFERENCE : TS-158403 - Subject Report

25X1A

1. I have read this report with interest. [REDACTED] trip would appear to have been most profitable.

2. In paragraph 11 of his report he makes three recommendations. I assume that you will give consideration to recommendations a. and b. and let me have your views on them. As to recommendation c, I suggest this be discussed by Commander [REDACTED] to determine the feasibility of meeting the minimum standards of a Secure Area at Adana. The need to have this material there, goes without saying.

25X1A

25X1A

3. I note [REDACTED] recommendation that the intelligence support procedure he worked out with Colonel Rodgers of USAFE be approved. The procedure seems to me satisfactory, subject to your views. I believe, however, it should be known to [REDACTED] and concurred in by him before it is finally and formally approved. Will you take whatever action is necessary on this matter.
